SUMMARY

Third-year Information Technology student with hands-on experience in Java Full Stack Development, REST API development, and secure web applications. Currently working as a Software Engineer Intern at Tracelink, contributing to backend services, API integration, production debugging, and Agile-based development workflows. Skilled in Java, Spring Boot, Spring Security, SQL/PostgreSQL, and React with strong foundations in Object-Oriented Programming, Data Structures & Algorithms, and scalable application development.

EDUCATION

- **Pimpri Chinchwad College of Engineering** Pune, India
Bachelor of Technology - Information Technology; CGPA: 8.69
Honors: Deep Learning and Neural Networks; CGPA : 10 July 2023 - June 2027
- **Laxmanrao Apte Junior College** Pune, India
Higher School Certificate ; HSC: 90.50 ; CET: 97.88 July 2021 - June 2023
- **Spicer High Secondary School** Pune, India
Secondary School Certificate; ICSE: 94.66 June 2020 - July 2021

EXPERIENCE

- **Software Engineer Intern – Tracelink** Onsite — Pune, India
(Java, RxJava, AWS) Feb 2026 – Present
Developed and enhanced backend services for secure enterprise data exchange and integration systems using Java and RxJava. Built and integrated REST APIs with frontend applications to enable seamless data communication and workflow automation. Worked on structured data processing pipelines and optimized backend workflows for enterprise-scale applications. Debugged production issues, performed root cause analysis, and improved system performance and reliability. Contributed to code reviews, bug fixes, and feature enhancements while following clean coding standards and best practices. Collaborated in Agile development workflows including sprint planning, stand-ups, and team discussions

SKILLS SUMMARY

- **Programming:** Java, SQL, JavaScript, Python
- **Backend:** Spring Boot, Spring MVC, REST APIs, Spring Security, JWT, Node.js, Express.js
- **Frontend:** React.js, HTML, CSS, Tailwind CSS, TypeScript, Bootstrap
- **Database & ORM:** PostgreSQL, MySQL, MongoDB, Spring Data JPA, Hibernate
- **Testing & Documentation:** JUnit 5, Mockito, Swagger/OpenAPI
- **Core CS Concepts:** Data Structures & Algorithms, Object-Oriented Programming, OS, DBMS, Multithreading
- **Tools & Platforms:** Git, GitHub, IntelliJ IDEA, VS Code, Maven, AWS (Basics), CI/CD Fundamentals
- **Problem Solving:** Solved 600+ problems across LeetCode, CodeChef, and GFG.

PROJECTS

- **VakilSahay — AI-Powered Legal Document Analysis Platform:** [GitHub:](#)
Developed a full-stack legal document analysis platform for clause-level risk assessment and document interpretation. Designed RESTful APIs with Spring MVC and implemented Spring Security with JWT-based authentication and RBAC. Built scalable backend architecture using Spring Data JPA, Hibernate, and Controller-Service-Repository design pattern. Integrated Apache Tika for PDF/DOCX parsing and implemented Swagger documentation, Flyway migrations, and exception handling. Wrote unit test cases using JUnit 5 and Mockito for backend service validation. Developed responsive frontend interfaces using React.js, TypeScript, Tailwind CSS, and Zustand.
Tech Stack: Java 17, Spring Boot, Spring Security, PostgreSQL, React.js, TypeScript, JUnit 5, Mockito, Swagger, Git
- **Library Management System – Full-Stack Web Application :** [GitHub:](#)
Developed a full-stack web application using React.js, Node.js, and Express.js for managing users and inventory workflows. Designed and integrated RESTful APIs for seamless frontend-backend communication. Implemented JWT authentication and role-based access control for secure user management. Optimized database queries and improved application response time by 30% for concurrent user handling.
Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT Authentication
- **Brainalyze – AI-Powered Brain Tumor Report Viewer :** [GitHub:](#)
Built a full-stack healthcare application for managing and visualizing medical reports with real-time data updates. Integrated backend APIs and model inference workflows for structured medical data processing. Designed responsive user interfaces using React.js and Tailwind CSS for improved user experience. Implemented secure data handling and role-based access mechanisms for sensitive healthcare information.
Tech Stack: React(Vite), Tailwind CSS, Supabase, Model Integration

HONORS AND AWARDS

- Recipient of Birlasoft Scholarship and PCMC Merit Scholarship for academic excellence in SSC and HSC examinations (90%+ score).

CERTIFICATIONS

- **AWS - Cloud Practitioner Essentials**
- **Great Learning- Introduction to DevOps**
- **Simplilearn - Introduction to Computer Networking**
